Pentoron				

## Problems from using Steal round bur, Cutting Disc, Diamond Disc

- 1) fiber become fluffy
- 2) melt the surface because of the friction heat between fiber post and bur
- 3) Remain the color of bur or disc on the section

## Holder with gauge

- Easy to cut the fiber thanks to the gauge on the holder
- \*measurement;  
5-15mm

- Cut fiber can be entered into the holder automatically
- As main body and holder are attracted with each other
